

Mindspace

LOCATION	Tempe, AZ
MARKET SECTOR	Tenant Interiors
SQUARE FEET	5,253
PROJECT TYPE	Corporate
ARCHITECT	McCarthy Nordburg

RJM Construction was selected by Mindspace to remodel their Tempe office.

The project team worked diligently to deliver a high-class space for the creative agency on an accelerated timeline. Early in the process, RJM frequently communicated with the client to prioritize essential design features and identify long lead time items.

A number of unique design elements were incorporated into the remodel, including custom millwork, white-washed brick walls and distinctive light fixtures. Creative work space closed pods and collaborative restaurant-style seating were also installed. An open layout with an abundance of natural light helped complete the Mindspace vision.
