

Bush Foundation

LOCATION	St. Paul, MN
MARKET SECTOR	Tenant Interiors
SQUARE FEET	31,642 sq ft
PROJECT TYPE	Office
ARCHITECT	HGA Architects

RJM Construction completed a full demolition and remodel for Minnesota Philanthropy and the Bush Foundation, that encompassed three floors at U.S. Bank Center.

The project includes private and open office areas, a large break room with a 6,000 lb. concrete countertop, as well as a boardroom with capacity exceeding 30 people. A unique touch to this space is the design of several elliptical glass wall conference rooms, built to reflect how Native Americans made huts.
