

## Elk River Public Works

LOCATION	Elk River, MN
MARKET SECTOR	Community
SQUARE FEET	83,958 sq ft
PROJECT TYPE	Public Works
ARCHITECT	292 Design Group

RJM served as the construction manager for the City of Elk River to build its new public works facility.

The project included indoor vehicle storage space, a multi-bay vehicle maintenance area with lifts, an overhead crane, lube reels and air compression hoses, as well as administration offices and a lunchroom. Externally, break areas were added along with a new salt shed store structure.
