

Fairview Northland Medical Center

LOCATION	Minneapolis, MN
MARKET SECTOR	Healthcare
SQUARE FEET	25,000
PROJECT TYPE	Hospital, Specialty Clinic
ARCHITECT	Pope Architects

RJM Construction recently completed the Fairview Northland Medical Center renovation and expansion in Princeton, MN.

The two-story addition includes new space for pediatric rehabilitation, cardiology, orthopedics, podiatry and radiology.

Renovated areas within the hospital included the main lobby and check-in. The project also adds an additional operating room along with a remodeled pre/post operating department, which was completed in six carefully planned phases. Updated finishes and equipment throughout the hospital complete the project scope.
