

Health Partners Dental Clinic

RJM Construction converted a restaurant space into a dental clinic for HealthPartners.

Located in St. Louis Park, the clinic has 11 treatment rooms, a sterilization room, lab and panorex room.

The project team developed a mock-up room on site to review the layout of each treatment room. This was a critical step to ensure the systems furniture, rough-in locations and patient chairs were exactly where they needed to be to maximize the functionality of the room and the comfort of the patient

PROJECT SUMMARY

CLIENT	Health Partners
LOCATION	Minneapolis, MN
MARKET	Healthcare
PROJECT TYPE	Specialty Clinic
SQUARE FEET	8,488
