

Hornets' Nest

LOCATION	Edina, MN
MARKET SECTOR	Community
SQUARE FEET	30,840
PROJECT TYPE	Ice Arena
ARCHITECT	Sperides Reiners Architects

The Hornets' Nest consists of a two-level, 30,000 sq.-ft. addition to the Braemar Ice Arena.

The lower level of the building houses elite locker rooms for the Edina Hockey Association, as well as coaching offices, training equipment and study rooms. The upper level of the addition includes a retail sporting goods store and a hockey training center. The precast structure was constructed within an accelerated five month schedule to meet hockey season demands.
