

# Maple Grove Veterans Memorial

LOCATION	Maple Grove, MN
MARKET SECTOR	Community
SQUARE FEET	7,500
PROJECT TYPE	Municipal
ARCHITECT	Confluence

The Maple Grove Veterans Memorial is a 7,500SF park within Maple Grove Central Park.

The memorial includes 19 laser-cut Corten steel panels showing descriptions and dates of the wars from WWI to the present, along with various famous quotes. The panels formed a pathway for the sidewalk, which included custom engraved stones purchased by members of the Maple Grove community to remember loved ones that served in the wars. The park is fully landscaped and includes three new flags. Additionally, RJM and select subcontractors were recognized as donors on the panels.

The primary challenge was working in a tight space that was highly visible to the public. The project team built a strategic schedule to ensure all contractors could perform work efficiently and safely.
