

Meridian Bank

LOCATION	Fountain Hills, AZ
MARKET SECTOR	Tenant Interiors
SQUARE FEET	4,200 sq ft
PROJECT TYPE	Financial
ARCHITECT	Orcutt Winslow

To avoid inconveniencing clients, the bank remained open during the entirety of the project. RJM coordinated the project with the bank to minimize impact to the public while ensuring the security of the bank was protected.

While maintaining access for the adjacent tenants, RJM reconfigured the existing front face of the building, adding in a new masonry wall feature and vaulted entry for the bank. RJM also updated all finishes inside the facility including new ceiling soffit work, lighting and new millwork teller lines. RJM constructed new glass front offices, rest rooms and conference rooms for the bank employees.
