

Minnesota Capitol North

LOCATION	St. Paul, MN
MARKET SECTOR	Community
SQUARE FEET	50,000 sq ft
PROJECT TYPE	Historic Renovation
ARCHITECT	Miller Dunwiddie

The Capitol North project consisted of the excavation and installation of two large cast-in-place concrete underground electrical rooms on the east and west of the Capitol North Wing.

The rooms were then covered by two new parking lots to address accessibility issues and a new loading dock. The North projects were the first use of Construction Management by the State Capitol.
