

## North Clinic Center for Women's Health

LOCATION	Minneapolis, MN
MARKET SECTOR	Healthcare
SQUARE FEET	7,067
PROJECT TYPE	Specialty Care
ARCHITECT	Mohagen Hansen Architectural Group

North Clinic hired RJM Construction to build out their new Women's Health Center inside the Plymouth Medical Office building.

The project features a unique and welcoming reception area with calming colors and decorative lighting. Finishes and design throughout create a comfortable and relaxing environment for the patients. In between testing and appointments, patients can relax in a private waiting area with refreshments. The clinic offers Dexa scans, ultrasounds, and mammograms on site.

RJM Construction worked closely with North Clinic and the designer as well as the Mechanical, Electrical and Plumbing vendors to help streamline the schedule and turn over the clinic in 11 short weeks.
