

Park Nicollet Clinic Golden Valley

LOCATION	Golden Valley, MN
MARKET SECTOR	Healthcare
SQUARE FEET	14,350
PROJECT TYPE	Clinic
ARCHITECT	292 Design Group

RJM Construction was hired by Park Nicollet Health Services to update and expand their clinic presence in Golden Valley.

A former office space was converted into a clinic. The buildout features an 10 optometry exam rooms, 19 primary care rooms, optical store, lab, and x-ray. A staircase in the middle of the space was removed while infilling the floor without disrupting office tenants on the second floor. Additionally, the display cases were rapidly sourced when the original vendor was unable to fulfill the order.
