

Park Nicollet Struthers Parkinson's Center

LOCATION	Minneapolis, MN
MARKET SECTOR	Healthcare
SQUARE FEET	10,200 sq ft
PROJECT TYPE	Specialty Care
ARCHITECT	EAPC Architects

RJM Construction was hired to build a 10,200 sq. ft. addition to the Struthers Parkinson's Center in Golden Valley.

The RJM team worked closely with the staff at Struthers to deliver a smooth construction process while patients were still being seen.

A highlight of the expansion is the indoor/outdoor movement therapy garden. To encourage a healing environment, the gardens were added with handicap accessible planters for therapy gardening. A walking path, benches and patio seating were added to the outdoor garden as well. A conference room, art room and a physical therapy room were also remodeled to complete the project.
