

## Shoreview Community Center Addition

The City of Shoreview hired RJM Construction to build an expansion to the Shoreview Community Center.

On the north side of the building, a two-story addition included four studios, four multipurpose rooms, and bathrooms on each level. Off the existing pool area, the new Bamboo Bay indoor pool was constructed, which consisted of unique, colorful, and fun play features, including a waterslide. Renovations within the existing building included a full remodel of all the locker rooms, fitness areas, and children's playscape.

Executing a compressed schedule, the project team experienced a two-month shut down period of the women's, men's and family locker rooms to reconfigure and remodel the space. The construction was strategically phased and tracked daily to remain on schedule.

### PROJECT SUMMARY

CLIENT	City of Shoreview
LOCATION	Shoreview, MN
MARKET	Community
PROJECT TYPE	Sports and Recreation
SQUARE FEET	50,000
ARCHITECT	BWBR
