

## Twin Cities Orthopedics - Eden Prairie

LOCATION	Eden Prairie, MN
MARKET SECTOR	Healthcare
SQUARE FEET	19,237
PROJECT TYPE	Clinic
ARCHITECT	Sperides Reiners Architects

RJM Construction was hired to remodel an existing office and warehouse space into a Twin Cities Orthopedics clinic.

Completed within an expedited schedule, RJM was able to accommodate post-design recommendations. To help reduce noise within the open space, RJM placed mechanical ventilation equipment within a custom drywall enclosure. The finished space features a large gym, artificial turf for sports training, a virtual golf simulator and patient rooms.
