

## Twin Cities Orthopedics Burnsville

Twin Cities Orthopedics selected RJM Construction to build a two story addition to the existing medical office building.

A two story addition and interior changes were made to the existing Twin Cities Orthopedics Burnsville and Minnesota Valley Surgery Center.

The ten month project expanded the orthopedic group's physical therapy, walk-in orthopedic services, clinic services and surgery center. Specialty areas in the center include operating rooms, sterile supply rooms and extended recovery rooms.
