

Walser Subaru Saint Paul

LOCATION	Saint Paul, MN
MARKET SECTOR	Corporate/Commercial
SQUARE FEET	46,663
PROJECT TYPE	Other
ARCHITECT	Phillips Architects & Contractors Ltd.

Walser Automotive Group selected RJM Construction to build a new retail location in South Saint Paul.

The dealership features a large sales floor, a three-lane service write-up area, new vehicle delivery space, twenty-six lift shop, car wash, and dog park. The exterior includes the main slate tower, which is the common feature at all Subaru dealerships. This is one of the larger Subaru dealerships in the country.

With construction beginning in the winter months the team had to create temporary heating solutions to stay on schedule.
