

YMCA Southdale

LOCATION	Edina, MN
MARKET SECTOR	Community
SQUARE FEET	88,150
PROJECT TYPE	Community Center
ARCHITECT	BWBR Architects

RJM Construction remodeled this suburban branch of the YMCA, complete with updated fitness areas, meeting rooms, lobby and building entrance.

RJM worked alongside the YMCA to ensure their normal business operations continued uninterrupted throughout construction. The team also built an addition to the facility to hold a new leisure pool. During this process, an unforeseen condition required RJM to reinforce the walls and install a new brick veneer complete with internal finishes.
