RJM CONSTRUCTION

Animal Emergency & Referral Center of Minnesota

The need for specialized animal health care services grew exponentially causing the Animal Emergency & Referral Center (AERC) of Minnesota to outgrow its current facility.

AERC partnered with RJM Construction, KOMA, and Oppidan to construct a 45,000-square-foot building across the street from their current clinic in Oakdale.

The existing facility will handle urgent care-only patients to allow the new facility to house 24/7 emergency service along with eleven different specialty services including Avian and Exotic Medicine, Internal Medicine, and Neurology to name a few.

The facility is scheduled to open in fall 2022.

ANIMAL EMERGENCY & REFERRAL CENTER OF MINNESOTA
