

Bremer Bank St. Anthony

UNDER CONSTRUCTION

As Bremer Bank continues to grow across the state of Minnesota, they hired RJM Construction to build a 6,029SF location in St. Anthony.

RJM will work alongside RSP Architects and Interstate Developers, Bremer's Client Representative, on this ground-up space.

The branch will be a single-level building that includes office space, client service areas, and a drive-through canopy for quick and easy banking.

The new branch is set to open in late 2022.
